Dear Mr Chapman:

Your latest adv. in the Sept. Numismatist rather surprises me as I was looking for only the ordinary run of sales this fall, but if there is anything "Great" coming off I want to be in on it and am therefore enclosing my dollar at once.

I presume the "Reimers" Collection from San Francisco will be included and I am prepared to bid on some of the pieces in that lot at least.

The above is my residence address and I will be at home for a long time now, I hope - Respy yours John H. Snow.

Snare,

Dear Mr Chapman:

Your "Junk's Sale" catalogue has arrived and I consider it a monumental work and you are to be highly complimented on having achieved such a great work.

I expect to send in a number of bids but if I could see the plate catalogue before I do I would probably send both more and higher bids -

It is my intention to purchase a plate catalogue but I would prefer to wait until after the sale for several reasons - I would prefer the prices bound in for one thing and I would also prefer to hold the necessary twenty dollars against

my bids as I may need it in a hurry  
if I am successful on many of them. -

I want you to reserve a plate catalogue for  
me however. -

Now it occurred to me that  
possibly you might have some loose plates etc  
that you could send me at my expense, at  
once - or if not could you forward a plate  
catalogue? - There are several people here  
in St Louis who might bid and if I had  
the plates to show I would round up a few  
of them. - I expect of course to pay all  
postage, insurance etc and perhaps I  
might change my ~~make~~ mind about having  
the pieces bound etc and keep the catalogue

I do not want to inconvenience  
you in any way but I would surely like to  
see the plates before I bid.

Respectfully yours,  
John H. Snow,

Snow
